Note 1 The Price Bands are for 'standard' care and support requirements as set-out in the DPS contract. Where additional support needs are identified over and above the standard requirements, then the placing Borough and Supplier can agree (in addition to the standard price) an 'additional needs' supplement or payment.

Note 2 Out of Area care homes will offer prices in line to their usual local area rates or price bands for the bed category requested; they are to submit quotations using the care home 'open book' pricing template set out in the DPS pricing schedule.

Note 3 Nursing price bands are quoted exclusive of Funded Nursing Care (FNC). Nursing homes are to claim the FNC element directly from the responsible CCG
